Saturday 10-5 &

A Myth or Fairy Tale offers a Map of the Psyche, revealing the Archetypal journey of the Soul.

This weekend is the continuation of an ongoing series of Myths and Fairy Tales designed to invoke, mirror and contain our individual sacred journeying through an exploration using Story and Creative Process as vehicle for transformation and embodiment of Soul. Using personal story, journeying, music, movement, ritual and large scale painting, we open all doors to the possibility of Becoming Our Authentic Self. No prior experience in art or movement is necessary.
